

PRONOMINER

Vi har adskillige slags pronominer. Vi har de relative (henførende) - de demonstrative (påpegende) - de interrogative (spørgende) – de refleksive (tilbagevisende) - de indefinitte (ubestemte) og de possessive (ejstedord).

1. - og så de personlige, selvfølgelig:

I - you - he, she, it - we - you – they (bruges som subjekt)
me - you - him, her, it - us - you – them (i alle andre tilfælde)

NB På engelsk bruges hyppigt pronomener om afholdte dyr, lande og skibe

Øvelse 1) Lav fire sætninger med disse personlige pronominer i

1. person pluralis som ikke-subjekt
2. person pluralis som subjekt
3. person singularis som ikke-subjekt
4. person singularis som subjekt

2. De refleksive:

myself - yourself – himself/herself/itself – ourselves - yourselves – themselves
plus neutralformen: oneself. (Bemærk i ét ord!!!)

Øvelse 2) Indsæt self-former:

1. We have painted the house
2. You two couldn't have done it better.....
3. I am not very practical
4. The boy hurt when he fell off the ladder
5. The soldiers tried to defend
6. The woman cut with a knife.
7. Behave, John!

NB Når du slår refleksive verber op i ordbogen, står de opgivet med oneself-formen. Du skal derpå selv bøje. Ex: to enjoy oneself = He enjoyed himself

3. De indefinitte: **some, any, no, every, each, all, whole, both.**
some, any, no, every kan sættes sammen med
-body,-thing,-one, og de er alle ENTAL

Øvelse 3) Indsæt verballed i præsens med korrekt kongruens:

1. Everybody _____ about it (to talk)
2. Somebody _____ too much money (to have)
3. No one _____ him (to like)
4. _____ anybody called? (to have)
5. Everything _____ going to be all right (to be)
6. _____ anyone here? (to be)

4. De interrogative: **who, whom, what, which, whose**

Who, whom og whose bruges om personer.

Who når det er subjekt: Who would ask such a question? Who is that man?

Whom i alle andre tilfælde: Whom do you love? (whom er her objekt) To whom is he married? (whom er her adverbialled).

Men i daglig tale bruges whom kun efter præposition – og who bruges alle andre steder. Whom er mere formelt.

Whose i genitiv: Whose car is it?

What bruges om ting, når udvalget ikke er begrænset.

What would you like to drink? (whisky, gin, vodka, rødvin, hvidvin, øl, snaps)

What colour did you paint the house? (rød, blå, gul, grøn, brun)

Which bruges hvis der er et begrænset antal ting eller personer!

Which would you like, whiskey or gin? (whiskey+gin = 2 ting)
